

Position Opening

Fabrication Manager

About Flying Fish

Since 2013 and headquartered in Melbourne, AUS with a prominent U.S. location in the Twin Cities, Flying Fish works with museums and science centers around the world to produce and tour exhibitions around the world. Serving as a resource to the museum industry, Flying Fish offers a portfolio of touring exhibitions in addition to its services in design, fabrication, freight, tour operations, and sales representation. At Flying Fish, our clients rely on us to offer them quality products and services. Due to demand and the company's exponential growth, we're expanding upon our services in fabrication and are thus seeking to fill a number of positions with experienced talent.

About the Position

We are looking for an experienced Fabrication Manager. At the start, this individual will manage the daily operations and oversight of all projects including project budgets, schedules and required equipment and personnel. Initially overseeing 1-3 fabricators, the Fabrication Manager should be well-versed in OSHA processes/procedures and have a solid foundation in supervision and project management. This position is very hands-on. The Fabrication Manager will be expected to work on all of the tools and equipment, and should subsequently be able to train all staff.

Position Type and Expected Hours of Work

This is a full-time, permanent position.

Location

White Bear Lake, Minnesota

Required Education and Experience

- Minimum 5 years of related experience in similar field
- Relevant post-secondary education preferred
- Carpentry/Cabinet making experience
